

# THE ULTRALIFE PRODUCT RANGE

## Great Tasting, Natural, Superior Quality, Highly Effective & Totally Unique

The UltraLife Product range comprises of highly appealing nutrition and health food products that are great tasting, natural, superior quality, highly effective and totally unique.

All UltraLife products have been specifically formulated to provide excellence in all six of the key criteria of any product range:

### 1) The Delivery System

Gone are the days of laboriously counting out or trying to swallow handfuls of pills; or holding your nose and trying not to gag as you force down some horrid tasting potion! No longer is there a need for you to compromise with boring, bland Health Foods or make do with unpleasant poor quality Weight Loss products!

UltraLife has 'broken this mould' by marketing nutritional supplements in the form of absolutely delicious, easy to mix drinks, which can be enjoyed by the whole family, and 'Guilt Free' highly effective health foods that are wholesome and taste fantastic!

UltraLife makes looking after your health what it should be - simple, enjoyable and easy!

### 2) Product Understanding

With the vast array of individual nutritional supplements in the market place today it is often difficult to know which product or combination of products to take, and how best to use them. Also, some health food companies use 'confusion marketing', which may give

misleading information as to why a product is 'healthy' and/or dazzle you with 'science', when in some cases the product is not healthy at all! All UltraLife products have been formulated to be as simple and easy to understand as possible, and include an innovative 'DID YOU KNOW?' list of helpful and interesting facts concerning the particular product.

### 3) Product Quality

UltraLife manufactures all its own products right here in the UK. As no one else is involved this means the highest levels of quality control can be maintained at every stage of manufacture; from the selection and arrival of raw materials in the factory right through to the despatch of finished goods to your door.

UltraLife reinvests into ongoing research and development so that UltraLife products remain at the cutting edge of technology, ensuring you always have the best products available. UltraLife delivers quality you can count on!

### 4) Product Safety

All UltraLife products have been specifically formulated to be as safe, child-friendly and allergy-free as possible.

### Ultra-Safe Low Calorie Sweetener Blend™

Some scientific studies have linked a variety of health conditions to the excessive consumption of 'regular' sugar and, to a lesser degree, low-calorie sweeteners. UltraLife therefore embarked upon a research project with top scientific bodies to develop an answer that was totally safe, yet still provided the necessary characteristics for delicious tasting drinks. The result is the Ultra-Safe Low Calorie Sweetener Blend™. This specifically formulated, unique combination of three low-calories sweeteners: Sodium Cyclamate, Acesulfame K and Aspartame works in such a highly synergistic way that each individual sweetener need only be included at very low levels per serving. These minimal amounts are significantly lower than the levels already proven safe by hundreds of well-documented clinical safety studies conducted by highly respected independent organisations. The Ultra-Safe Low Calorie Sweetener Blend™ enables all flavoured UltraLife products to be Sucrose 'regular sugar' Free, Suitable for Diabetics, Low Calorie, Low Glycaemic Index (GI), and provides the safest possible sweetening method available today!

Note: For those who may still wish to totally abstain from sugar or sweeteners of any kind, UltraLife provides all nutrition products in an Unsweetened and Unflavoured variety.

### 5) Product Effectiveness

All UltraLife Products have been specifically formulated to contain only the highest quality and most bioavailable forms of ingredients, and at the optimum levels and ratios.

As heat can destroy the active components of many vitamins and enzymes UltraLife has chosen to use only 'cold processing' techniques throughout the manufacturing process.

And with the addition of a patented bioavailability enhancer to an already superior liquid delivery system UltraLife has ensured that its products are guaranteed to deliver maximum uptake by the body, maximum effectiveness and therefore maximum RESULTS!

### 6) Value For Money

The combination of being privately owned and manufacturing products right here in the UK has enabled UltraLife to create products that are not only superior quality but also much better value for money when compared to companies who choose to label other manufacturers' products or who have to import from abroad. When combined with UltraLife's highly competitive pricing policy it means our products will be even more appealing to a wider share of the population.

## 30-DAY MONEY BACK SATISFACTION GUARANTEE

We are so confident in the effectiveness of all UltraLife products that we challenge you to try them today – Risk Free!! Purchase any UltraLife product and if you are not completely satisfied with the product or the result that you get, simply return the empty/partly used jar to UltraLife within 30 days, using a recorded delivery service, and we will refund you the complete cost of the product. This guarantee is applicable on ANY individual product that you purchase for the first time.

# ULTRA-NUTRITION RANGE

## No Pills! No Tablets! No Horrid Potions! Just Absolutely Delicious Drinks!

Gone are the days of laboriously counting out or trying to swallow handfuls of pills; or holding your nose and trying not to gag as you force down some horrid tasting potion!

UltraLife has instead made looking after your health simple, enjoyable and easy by marketing nutritional supplements in the form of absolutely delicious, easy to mix drinks, which can be enjoyed by the whole family.

The Ultra-Nutrition range really is nutrition made easy – both to take and understand! To 'keep it simple' UltraLife has split the whole confusing nutritional supplement industry into its key areas and has specifically formulated the following comprehensive, superior quality complexes designed to deliver the absolute best in each:

### ULTRA CLEANSE

A unique combination of herbs, fibres, nutrients and patented beneficial 'friendly' bacteria for daily cleansing and detoxifying.

### ULTRA VITES

A superior quality, fully comprehensive Vitamin & Mineral complex containing the most bio-available and effective ingredient forms, at the optimum levels and in the optimal ratios.

### ULTRA FRUIT & VEG

Specifically formulated to provide the same levels of Phytonutrients, Bioflavonoids, Vitamins, Minerals and Essential Nutrients as contained in 5-9 Servings of fresh fruit & vegetables.

### ULTRA ANTIOXIDANT

With Professor Masquelier's Original OPCs, uniquely documented in research since 1948 as "Nature's Most Powerful Antioxidant".

### ULTRA MAX

'The Ultimate in All Round Nutrition' – containing all four of the above nutrition products in one powerful Super Complex with an additional FREE serving of Ultra Vites!

### Flavours & Jar Sizes

Each of these fantastic products comes in a month's supply or convenient weekly Trial/Travel size, and are available in great tasting Tropical Fruit and Orange Burst Flavours, as well as a versatile Unflavoured & Unsweetened option, which is easily mixed with your favourite juice or flavoured cold drink.

### MAXIMUM Bioavailability MAXIMUM Effectiveness MAXIMUM Results!

The liquid delivery system of all Ultra-Nutrition products provides superior bioavailability and a faster uptake by the body than other delivery systems such as tablets or capsules.

By also including Bioperine,, a patented nutrient, clinically proven to increase bioavailability by up to 60%, UltraLife has created a powerful combination that ensures maximum possible uptake by the body, maximum effectiveness and therefore maximum results!

## ULTRA-HEALTHY FOOD RANGE

### Indulge Yourself With Absolutely 'Wicked' Tasting Health Foods That Are GUILT FREE!

No longer is there a need for you to compromise with boring, bland Health Foods or make do with unpleasant poor quality Weight Loss products!

UltraLife has 'broken this mould' by marketing 'Guilt Free' top quality, highly effective health foods that are wholesome and taste fantastic!

The Ultra-Healthy Food Range comprises of:

#### ULTRA-HEALTHY SHAKE

Three absolutely delicious 'yummy' tasting Guilt Free shakes: Chocolate Heaven, Strawberries & Cream and Vanilla Cream, for effective use in weight control, sports and/or a healthy meal – which make an excellent, quick and convenient breakfast, lunch and/or dinner!

#### ULTRA-HEALTHY HOT CHOCOLATE

A truly 'naughty-tasting' Guilt Free Hot Chocolate variety, which also offers an excellent healthy alternative to other hot beverages such as tea or coffee! It's a chocoholics' dream-come-true!

#### Optimal Nutritional 'Balance'

All Ultra-Healthy Food Products have been specifically formulated to deliver the optimal nutritional 'balance', and as a result are all:

- High Protein
- High Fibre
- Low in 'fast-burn' Carbohydrates (Low Glycaemic Index)
- Low Calorie (200 – 250 Calories per serving).

#### Unique Ingredients

All Ultra-Healthy Food Products are totally unique in that they contain:

- 1) A unique Soya Protein Isolate (over 20g per serving), which unlike other soya proteins possesses superior digestibility and an Amino Acid Scoring equal to that of Whey Protein and Egg White, which makes it one of the highest quality forms of protein available today.
- 2) Inulin (5g per serving) – A unique prebiotic fibre that helps support the gastrointestinal system and the 'friendly bacteria' that live there.
- 3) Lecithin (10g per serving) – A special healthy lipid fat that supports brain function and actually helps to break down body fat, cholesterol and other fatty deposits – best described as 'The Fat that helps you lose Fat'.
