

## **ULTRALIFE DETOX**

### **Total cleansing and detoxifying drink**

Are you feeling sluggish? Dark circles permanently under your eyes? Still bloated since the weekend's excesses? You sound like a mess. You sound like you need to detox.

Sound digestion and absorption is a prerequisite for glowing skin, shiny hair, bright eyes and maximum vitality. Indeed, our external and internal health relies heavily on the performance of our intestinal system.

Detoxing is one of the most popular health treatments undertaken by people who are keen to improve their health and well-being. A unique new detox drink from Ultralife aims to cleanse your system, improve energy levels, ease digestion and enhance mental clarity – all whilst battling the toxins from environmental pollutants, preservatives and colourings in food, refined foods and drugs such as nicotine and alcohol that build up in our bodies.

**Ultralife Detox** is a product specially designed to support a healthy gastrointestinal system whilst helping to eliminate gastrointestinal toxins and parasites. It contains a 'healing clay' that assists in binding and removing toxins from the gut, a blend of herbs well known for their cleansing abilities and over 67 million healthy lactobacillus bacteria that promote a healthy intestinal flora. **Ultralife Detox** helps to reduce/lower LDL ('bad') cholesterol and can assist in weight loss.

Consuming an **Ultralife Detox** drink is a quick and easy antidote to the stresses that a diet heavy in convenience foods can put on our bodies. Tiredness, poor skin, abdominal bloating, problems with food digestion, poor concentration and slow metabolisms can be rectified before they lead to illness. **Ultralife Detox** is scientifically proven to eliminate toxins and allow the body to return to a "neutral" equilibrium without the need for invasive colonic irrigation procedures.
